Aug 3, 2020

To Don Nottoli, County Supervisor:

My RV-home (of 8 years) is stranded in Sherman Island County Park. I was told to ask you to help me recover my property by Congressman John Garamendi's aide.

To better explain I have attached to this email:

8-page petition to Dept #27 where Judge Gevercer (assigned May 1, 2020)  
8-page FEMA complaint (mailed Aug 3, 2020 to both Oakland and Washington DC offices)  
1-page ADMINISTRATIVE CLAIM to the County Attorney  
2-page letter to DA asking to have the Elder Death team review the circumstances surrounding the last four months of my husband's life in DHS care and whether or not what is happening to me as a disabled person is not abusive in and of itself, seeing as how I am on the caseload of *Project Roomkey*. It is an (ongoing) violation of the Unruh Act because all involved refuse to help me (or even return my calls) because my home is an RV.

This is America and in the capital city of its most thoroughly progressive state, so if I can't get actual help, newly widowed, on SSI already, homeless by ANY STANDARDS NOW, how is it that I can get no help? I'll tell you. It's because I want my RV back. That is an unacceptable mode of housing to Sacramento County DHS and so they ignore me. I had a home on March 18, 2020 before County employees and their sub-contractors walked in.

Again: this is a very specific request so I can prove to the court in 45 days I was ignored by all officials concerned. It is my RV home shared with my late husband that is the home I NEED. The program known as **Flexible Housing Program** (FHP) can be opened up to supply a mechanic to repair whatever happened in March to it, RV park move-in assistance, RV park lot subsidy and a driver to move the RV there. <https://project-room-key-home-key-no-key.com> is the website I set up last week when an advocate introduced me to Theresa Clift of the Sacramento Bee. There are actually two websites. Second link is the one I made the last three weeks of my husband's life while we were subjected to inhuman treatment by those running *Project Roomkey* version that holds the trailers at CalExpo: [www.thepandemic.home.blog](http://www.thepandemic.home.blog)
